

Command NRDAR
Summary List of Letters Sent to the Public
Requesting Additional Restoration Project Information
August 29, 2002

Request for Additional Information Letters, sent to:

Gary Page (PRBO)	Moss Landing Management Area Improvements
Josh Adams Moss Landing	Sooty shearwater projects in New Zealand
Michelle Hester Oikonos	Ano Nuevo Seabird Habitat Restoration
Julia Bott San Mateo County Parks & Recreation (SMCPR)	Mirada Surf Acquisition and Access Improvement
Mike Ednoff San Mateo County RCD	San Vicente Creek / Fitzgerald Marine Reserve seabird projects
Bradford Keitt Island Conservation & Ecology Group (ICEC)	Mexico seabird breeding site projects
Bill Sydeman PRBO	Farallon Island projects (asked to send any input directly to Joelle)
Wendy Poinsot Citizen	Recreation Projects at Pescadero Marsh and Fitzgerald Marine Reserve.
Mary Burns (SMCPR)	Recreation Improvement Projects to Seal Cove and Moss Beach, and Mirada Surf acquisition.
Brian O'Neill National Parks-Golden Gate	Mirada Surf Acquisition
Diana Hall Penninsula Open Space Trust	Marbled Murrelet Habitat Acquisition

Thank you (no additional information requested) letters sent to:

Sue Abbott (PRBO)	Education projects
Bernie Tershy (ICEC)	Farallon Island / other Island predator removal (Joelle's working on this)
Lennie Roberts (Committee for Green Foothills)	Education projects
Bern Smith (Landsmiths)	Leash Law
Ron Sturgeon (citizen)	Education projects

Mr. Gary Page
Wetland Program Director
Point Reyes Bird Observatory Conservation Sciences
4990 Shoreline Highway
Stinson Beach, California 94970

Subject: Request for Additional Information on the Moss Landing Management Area Improvement Project

Dear Mr. Page:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

We have screened all comments, received to date, and would like to hear more about your proposal to improve the Moss Landing Management Area. Specifically, we are interested in the following:

1. Description and explanation of how the proposed project would specifically meet selection criteria listed in the Command Public Scoping Document.
2. Estimated project costs and a description of the financial and regulatory feasibility of the project.
3. More detailed description and explanation of the benefits that would be derived from the restoration proposed to those injured resources addressed in the Command Public Scoping Document.
4. Contact information identifying personnel who can answer questions about your proposed projects.

Information provided will be used to assist the Council in developing and writing the Draft RP/EA, and the process for final project selections will be outlined in the Command Final Restoration Plan. If you have any questions please contact Charlene Hall at 916-414-6600 or visit the "Command" website at: www.darcnw.noaa.gov/command.html or www.dfg.ca.gov/ospr.restorations.html. Thank you for your interest in the Command Oil Spill Restoration Project.

Sincerely,

David L. Harlow

September 16, 2002

Mr. Josh Adams
Moss Landing Marine Laboratories
Moss Landing, California 95039

Subject: Request for Additional Information on Sooty Shearwater Restoration Projects

Dear Mr. Adams:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

We have screened all comments received to date and would like to hear more about your proposal to remove introduced/exotic mammalian predators and competitors at sooty shearwater breeding sites in New Zealand. Specifically, we are interested in the following:

1. Description and explanation of how the proposed project would specifically meet selection criteria listed in the Command Public Scoping Document.
2. Estimated project costs and a description of the financial and regulatory feasibility of the project.
3. More detailed description and explanation of the benefits that would be derived from the restoration proposed to those injured resources addressed in the Command Public Scoping Document.
4. Contact information identifying personnel who can answer questions about your proposed projects.

Information provided will be used to assist the Council in developing and writing the Draft RP/EA, and the process for final project selections will be outlined in the Command Final Restoration Plan. If you have any questions please contact Charlene Hall at 916-414-6600 or visit the "Command" website at: www.darcnw.noaa.gov/command.htm or www.dfg.ca.gov/ospr.restorations.html. Thank you for your interest in the Command Oil Spill Restoration Project.

Sincerely,

David L. Harlow

Mr. Mike Ednoff
Executive Director
San Mateo County
Resource Conservation District
625 Miramontes Street., Suite 206
Half Moon Bay, California 94019

Subject: Request for Additional Information on Command Oil Spill Restoration Projects

Dear Mr. Ednoff:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

We have screened all comments received to date and would like to hear more about your proposal to restore San Vicente Creek/Fitzgerald Marine Reserve and its potential benefits to seabirds and shoreline habitat. Specifically, we are interested in the following:

1. Description and explanation of how the proposed project would specifically meet selection criteria listed in the Command Public Scoping Document.
2. Estimated project costs and a description of the financial and regulatory feasibility of the project.
3. More detailed description and explanation of the benefits that would be derived from the restoration proposed to those injured resources addressed in the Command Public Scoping Document.
4. Contact information identifying personnel who can answer questions about your proposed projects.

In addition, please forward mailing addresses for organizations listed in your June 3, 2002, letter. We would like to add them to our mailing list and include them in our outreach efforts. We would also like to request a copy of San Mateo County Resource Conservation District's publications and documents which identify projects of high resource enhancement value to the California coastside.

Subject: Request for Additional Information on Mexico Based Seabird Restoration Projects

Dear Mr. Keitt:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

We have screened all comments, received to date, and would like to hear more about your proposal to protect and conserve seabird breeding colonies in Mexico. Specifically, we are interested in the following:

1. Description and explanation of how the proposed project would specifically meet selection criteria listed in the Command Public Scoping Document.
2. Estimated project costs and a description of the financial and regulatory feasibility of the project.
3. More detailed description and explanation of the benefits that would be derived from the restoration proposed to those injured resources addressed in the Command Public Scoping Document.
4. Contact information identifying personnel who can answer questions about your proposed projects.

Information provided will be used to assist the Council in developing and writing the Draft RP/EA, and the process for final project selections will be outlined in the Command Final Restoration Plan. If you have any questions please contact Charlene Hall at 916-414-6600 or visit the "Command" website at: www.darcnw.noaa.gov/command.htm or www.dfg.ca.gov/ospr.restorations.html. Mr. William Sydeman
Director, Marine Science Division
Point Reyes Bird Observatory
4990 Shoreline Highway
Stinson Beach, California 94970

Subject: Public Comments on Potential Restoration Projects for Natural Resources Impacted by the T/V Command Oil Spill

Dear Mr. Sydeman:

Thank you for providing the Command Trustee Council with restoration project proposals and for providing comments on the 'Command Oil Spill Public Scoping Document for Restoration Planning.' Both your comments and project proposals will be considered during the preparation of a Draft Restoration Plan/Environmental Assessment (RP/EA). The Draft RP/EA will be made available at a later date for public review and comment, and we will add your name to our current mailing list.

The Council plans to investigate predator removal and seabird habitat restoration proposals for Farallon Island, and Ms. Joelle Buffa of the U.S. Fish and Wildlife Service's San Francisco National Wildlife Refuge is coordinating this effort. Please feel free to share additional information or specifics directly with Ms. Buffa. Information you provide will be used to assist the Council in developing and writing the Draft RP/EA, and the process for final project selections will be outlined in the Command Final Restoration Plan.

Again, thank you for your interest in this project. If you have any questions please contact Charlene Hall at 916-414-6600 or visit the "Command" website at: www.darcnw.noaa.gov/command.htm or www.dfg.ca.gov/ospr.restorations.html.

Sincerely,
